national housing strategy
a place to call home
Nov 04 2021
web
Canada's national housing strategy is a 10-year
70 billion plan to strengthen communities and cut chronic
homelessness in half. The ambitious strategy will remove
530,000 families from core housing need and completely
make their communities home.

radiation ncbi bookshelf
Mar 28 2021
web
Ionizing radiation damages the genetic material
in reproductive cells and results in mutations that are
transmitted from generation to generation. The mutagenic
effects of radiation were first recognized in the 1920s and
since that time, radiation has been used in genetic research
as an important means of obtaining new mutations in
experimental organisms.
