**Coronavirus COVID-19 Update**

The FDA authorized a second booster dose of either the Pfizer Biontech or the Moderna COVID-19 vaccines for older people and after the third dose in adults 18 years of age and older.

**Atagi Updated Recommendations for a Winter Dose of COVID-19**

Rates of hospitalisation, severe disease, and death from COVID-19 are lower in adults aged 50-64 years when compared with older adults, especially in people that have received a first booster dose. Atagi recognises that some people aged 30 to 49 years would also like to reduce their risk of infection from COVID-19 and therefore may consider.

**Frailty in Older Adults**

The *Journals of Gerontology Series A* February 25, 2021, Web: March 01, 2001, to develop and operationalize a phenotype of frailty in older adults and assess concurrent and predictive validity. The study used data from the Cardiovascular Health Study participants were 5,317 men and women 65 years and older. 4,735 from an original cohort recruited in 1989-90 and 582 from an African American cohort recruited in.

**Alcohol Use and Your Health**

Centers for Disease Control and Prevention March 29, 2021, Web: The Dietary Guidelines for Americans recommends that adults of
legal drinking age can choose not to drink or to drink in moderation by limiting intake to 2 drinks or less in a day for men or 1 drink or less in a day for women on days when alcohol is consumed. The guidelines also do not recommend that individuals who do not drink alcohol start drinking.

Older Americans Act Apr 10 2022 web To maximize flexibility of funding and to enhance services to older adults, older Americans Act grantees have the option to use III E funds to meet the match requirements for certain programs administered by the National Community Service CNCS. Kathy Greenlee, appointed by President Obama as 4th Assistant Secretary for Aging 2010.

Emergency Use Authorization Feb 08 2022 web Nov 15 2022 for the treatment of mild to moderate COVID-19 in adults and pediatric patients 12 years of age and older weighing at least 40 kg with positive results of direct SARS COV 2 viral testing and interventions to reduce ageism against older adults.
Research has found a strong link between ageism in the form of negative stereotypes, prejudice, and discrimination toward older people and risks to their physical and mental health. Little is known about the effectiveness of strategies to reduce ageism. Objectives to assess the relative effects of 3 intervention types designed perspectives of older adults on aging well a focus group study Hindawi.

Background: With increasing numbers of older adults worldwide, promoting health and well-being becomes a priority for aging well. Well-being and physical and mental health are closely related, and this relation may become more vital at older ages as it may contribute to aging well. The state of well-being is a multifaceted phenomenon that refers.
