**What letters at the end of Intel CPU model numbers stand for**

May 09 2022, Dec 8 2020. As a general rule, bigger numbers are better when looking at a product page or a specification sheet for a laptop or even some desktops. Anyone will notice letters attached at the end of the CPU model numbers too. See figure 1. Intel processor names are composed of computer network Wikipedia.

A computer network is a set of computers sharing resources located on or provided by network nodes. The computers use common communication protocols over digital interconnections to communicate with each other. These interconnections are made up of telecommunication network technologies based on physically wired optical and wireless radio frequency methods.
